

I would like to let you know how important KLOVE has been to our community's youth. My children listen to it now as adults and my granddaughter. From the time my children were in their youth group in church it made such an impact then and now. Not only the youth but also for us as adults over 50. Please reconsider making any changes that would affect our communities ability to listen to Klove. I truly believe and know that our children, youth are in dire need to listen to positive and encouraging music and the wonderful uplifting comments you do not hear on other secular radio stations. We as a community need to be able to have this radio station available. As it is a Blessing. I know that some of you are Christ filled and need to make the right decision in keeping this station on the air. Thank you and God Bless you, too.
